SUBJECT : Establishment of an OTR  
Educational Committee

1. The Director of Training has approved the formation of an "OTR Educational Committee" as additional means of attaining and maintaining the highest possible standards. (See attachment.) It is intended also as a means of achieving greater uniformity of training throughout OTR and of encouraging coordination and exchange of experience among the several schools and staffs. It should help meet our recurring problem of orienting and training new instructors, especially those who are with us in rotation from the Clandestine Services. Finally, it will supplement the weekly DTR staff meeting by providing the "teachers" an opportunity to meet together to discuss teaching problems.

2. It is requested that you inform PPS of your designated representative not later than 14 October 1959. Mr. [REDACTED] who will chair this committee, will subsequently call a first meeting.
